

**THE SCIENTIFIC COMMITTEE
OF THE SENATE OF THE UNIVERSITY OF MONTENEGRO**

**Subject: Submission Of Accompanying Documentation For Appointments To
Academic And Scientific Titles**

To enhance the efficiency of the process for preparing call materials for appointments to academic and scientific titles advertised by the University of Montenegro and reduce the volume of printed materials, we suggest that only the application for the call, including a curriculum vitae, employment history, and classification bibliography, be submitted in print. The complete call documentation, encompassing supporting documents, papers, and other evidence of scientific, artistic, professional, and pedagogical qualifications, should be submitted in electronic format (CD or USB).

Since the documentation will need to be provided to reviewers after the review committee is appointed, it is essential to ensure five copies of the call materials: three for the members of the review committee, one for the Scientific Committee, and one for the Archive (this also applies to electronic materials).

Sincerely,

President of the Scientific Committee
Prof. Dr. Irena Orović
